When you get to LA CRUZ DE TEJEDA just follow the road towards Tejeda. Always follow the same road (you'll see a junction further down to the right. Ignore it!). Then turn left when you see the sign LA CULATA, on the left. Follow that road till you can see, again on the left, the sign LOS MANANTIALES. It's a narrow and hilly road. Keep going till you can see our house on the right hand down, and park there. Just park at the side of the road, but leave some space for the other users (there's two brothers living at the end of the little road and they pass about twice a day). You have to go to the end of the little road as well if you want to turn your car to get out.
